Quality Improvement Organizations

Sharing Knowledge. Improving Health Care.
CENTERS FOR MEDICARE & MEDICAID SERVICES

IPRO

Serving
New York State

Re-Cap

NHQCC Goal

- Improving rates of Antipsychotic Medication use by 15%
- Achieving a Composite Measure score of ≤ 6

AIM

- Support NHs achievement of these goals through
- Provision of applicable learnings
 - Resources
 - Shared quality practices

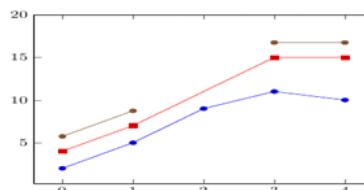

Activities

Face-to- Face Kick-off collaborative

- **Virtual Learning**
 - **QAPI Self assessment tool**
 - **Using Data in QI (CASPER/Composite)**
 - **Open Forum Sharing**
 - **Antipsychotic Medication**
 - **QMs**
 - **Resident/Family Perspective**

Data

Anti-psychotic Medication (long stay) quality measure (QM)

- CASPER data
- Baseline is Q2 2015 (April 1, 2015 – June 30, 2015)

Composite Measure

- Data is abstracted from the MDS 3.0 quality measure data

Composite Measure

13 NQF-endorsed, publically reported Long-Stay Quality Measures (QM)

- Percent of residents with one or more falls with major injury
- Percent of residents with a urinary tract infection (UTI)
- Percent of residents who self-report moderate to severe pain
- Percent of high-risk residents with pressure ulcer
- Percent of low-risk residents with loss of bowels or bladder
- Percent of residents with catheter inserted or left in bladder
- Percent of residents physically restrained
- Percent of residents whose need for help with Activities of Daily Living (ADL) has increased
- Percent of residents who lose too much weight
- Percent of residents who have depressive symptoms
- Percent of residents who received antipsychotic medications
- Percent of residents assessed and appropriately given the seasonal influenza vaccine
- Percent of residents assessed and appropriately given the pneumococcal vaccine

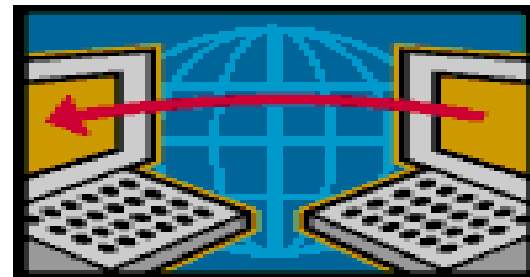

Challenges

- Face- to- face

- Contact Management System

- Communication

Next Steps

Continuing

Focus

- Antipsychotic Medication Use
- Composite Measure Score
- C.difficile

Provide

- Learning
- Recommended QI Strategies
- Technical support

Peer Group “Sharing in Action”

Antipsychotic Medication Use

Isabella Geriatric Center Washington Heights NYC

Dr. David Emanuel, Chief Medical Office
Yoko Tajami, LCAT, QAPI Specialist
Ellen Harnett, Vice President for Quality and Compliance

Peer Group “Sharing in Action”

Composite Measure

- 13 NQF-endorsed, publically reported Long-Stay Quality Measures (QM)
- Central Park Rehabilitation and Nursing Center
